

Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, July 31.—Negative conditions prevailed in the stock market today, with dealings so light as to be devoid of actual significance. Total transactions amounted to scarcely 225,000 shares, of which the first hour furnished about 40 per cent. Traders had the session entirely to themselves, and the course of prices suggested further uncertain speculative sentiment.

There were few surface indications of investment inquiry, although August interest and dividend disbursements of fully \$150,000,000 will represent the largest sum ever disbursed for that month. Politics, crop news and labor troubles formed the basis of languid discussion. Advances from the west and northwest told of further deterioration of wheat and corn.

Rails were again a negligible factor. Leading western roads show large tonnage gains over last year, increases averaging about 15 per cent.

Shipping stocks were consistently strong, as were motors and accessories, with the notable exception of Willlys-Overland, munitions and related equipments, together with United States Industrial Alcohol, ranged 1 to almost 3 points higher, but the gain of 17 points in American Brake Shoe preferred was without definite explanation. Metals were retarded by a heaviness in Kennicott Copper, which

made its lowest price of the year, but United States Steel was firm throughout.

Bonds were irregular on small dealings. Total sales, par value, \$2,740,000. U. S. bonds were unchanged on call.

Chicago Grain

CHICAGO, July 31.—Cooler weather, which tended to dispel fears of increased damage to the spring crop, made the wheat market today somewhat easier during most of the session. The close was unsettled, September \$1.21½ and December \$1.24½, with the market as a whole ½¢ off to ¼¢ up as compared with Saturday's finish. In corn, the outcome was unchanged to 1¢ lower. Oats lost ¼¢ to 1¢ and provisions showed a setback of 7½¢ to 10¢.

At first, the rush to sell on account of the break in the price of wheat, soon, however, a rally took place owing to bullish Canadian reports telling of the spread of the black rust and of scanty filling.

Assertions by a leading expert that the wheat crop of South Dakota looked like a failure accompanied the advances of meager threshing returns there. He said also that the crop in North Dakota was poor.

Rain in central Illinois and in

western Iowa gave the bears the final advantage as to corn.

Oats were weak throughout the day.

Plentiful receipts of hogs here weakened provisions. There was no evidence of any support from packers.

BOSTON, July 31.—There was absolutely nothing to the local market today. Business was the quietest in several months. People seem to be waiting for something to happen. Copper stocks are down to a level where it is safe to buy them. They have not been boomed as yet and would take on some of the better coppers for a big advance later on. The New York market is spotty. It is a market of specialties at the present. On any pronounced weakness in the general list would buy them on a scale down. Copper 25½-27¢.
